Education

University of Waterloo, Bachelor of Mathematics   Sept 2024 – Apr 2028
- Cheese Club Treasurer: Managed budgeting, accounting, and P&L reports to ensure efficient fund allocation for a club of **180+ active members** while overseeing data filing, CSV cleanups, and financial record-keeping.
- Cooking Club Workshop Coordinator: Organised and facilitated workshops, including planning sessions and managing supplies, resulting in a **20% increase** in member attendance and positive feedback from participants.

Projects

Portfolio Website| *TypeScript, Next.js, Tailwind CSS, Framer-motion, D3.js*   cedri.cc
- Redesigned a **responsive website** to serve as an engaging hub to showcase projects, milestones, and writings.
- Implemented modern web designs and both decorative and practical features to **enhance UI/UX for all devices.**
- Completed the overhaul **within two weeks**, transforming the website into a polished, user-friendly platform.

Wat's up Brokie | *TypeScript, Next.js, Tailwind CSS, Prisma, Supabase, Resend*   cedri.cc/wats-up-brokie
- Built a full-stack platform for University of Waterloo students to discover **free campus events, food, and deals**.
- Implemented **interactive calendar, campus map**, and **admin dashboard** for event management.
- Developed a **mobile-friendly interface** with integrated **auth systems** to streamline user experience and control.

Holy Grailed | *JavaScript, Puppeteer, Node.js, D3.js, REST APIs, React*   cedri.cc/HolyGrailed
- Analyses **30 related listings in around 20 seconds**, enhancing decision-making speed and price transparency.
- **Integrated web scraping safeguards** to prevent IP blocks and respect Grailed's system limits.
- Built interactive **visualisations using D3.js**, enabling users to view distributions and market trends at a glance

Promptection | *JavaScript, Chrome APIs, HTML, CSS, RegEx pattern*   cedri.cc/Promptection
- Built a Chrome extension that redacts sensitive data using **regex filtering** before submission to **AI chatbots**.
- **Designed a seamless UX** with **real-time detection**, ensuring privacy **without breaking functionality**.
- Addressed **AI data security** risks by offering users an open-source, plug-and-play privacy solution.

Work Experience

Event Planner, Weds dinners – Newmarket, ON   May 2023 - Nov 2023
- Collaborated with a team of **10+ staff members** to implement a streamlined workflow process.
- Coordinated dinner events for **50–80** attendees each, ensuring smooth execution from planning to conclusion.
- Ensured **100% on-time readiness** and guaranteed all arrangements and materials were prepared on time.

Senior Barista, Metropolis Mercantile + Cafe – Newmarket, ON   Nov 2022 - Dec 2023
- Led and trained five staff members, improving service quality by providing hands-on mentorship.
- Managed relationships with **100+ customers daily** with **95%+ customer satisfaction** as reflected in reviews.
- Created and tested **10+ new pourover recipes**, incorporating customer feedback to align with preferences.

Volunteering Experience

Organiser, The Salvation Army – Aurora, ON   Dec 2023- Jun 2024
- Organised and maintained the layout of **5000+** donated items to create an accessible environment.
- Coordinated and led team members to efficiently sort, categorize, and display donations.
- Managed inventory tracking and ensured timely redistribution of items to maximize community impact.
